Chief Engineer F. H. Newell of the government reclamation service has informed the house committee on irrigation that from 25,000 to 30,000 acres of land would be irrigated at the beginning of the present irrigation season from the Little Snake canal between Wyoming and Nebraska. Most of this land is in Wyoming.

Samuel H. Elliott, an Oregon pioneer, aged 78, was burned to death at his home near Hillsboro, Ore. He was a paralytic and it is supposed the fire started from coals dropped from his pipe. His aged wife and son were planting potatoes at the time and when they saw the fire it was impossible to reach him.

Ray Harris, said to be a Salt Lake newspaper man, who was forced to leave Bannock, Montana, an old mining town in Beaverhead county, after being ducked in an irrigating ditch and daubed with paint, for surveying the townsite for placer claims, has sworn out warrants for seventeen men, who, he alleges, committed the outrage.

FORCED TO WALL BY GREAT FIRE

Traders' Insurance Company of Chicago in the Hands of a Receiver.

One of the Largest Fire Insurance Companies of the West Falls Because of Serious Losses Sustained as Result of San Francisco Disaster.

Chicago.—Byron L. Smith, president of the Northern Trust company of this city, was on Saturday appointed receiver for the Traders' Insurance company by Judge Julian Mack, in the circuit court of Cook county.

The company is one of the largest fire insurance companies in the west and its distress is due to the heavy losses it sustained in the San Francisco fire, the amount of which was stated in the application for the receiver to be approximately \$3,748,000. It was stated in the application that the assets of the company will not exceed \$3,300,000.

In addition to this, the company is indebted for fire losses and upon other claims to an amount aggregating \$111,962. All of these losses are unpaid.

The application for the receiver was made in behalf of fifteen stockholders, including John A. King, Clarence Buckingham, Charles L. Hutchinson, Abram Poole, William C. Seipp and George Sturges, all of them wealthy men.

The order appointing Mr. Smith receiver also restrains the company from doing business in Illinois until after the termination of the receivership. Mr. Smith's bonds were fixed at \$2,000,000.

GAPON IN SWITZERLAND.

Russian Anarchist Was Not Lynched by His Fellow.

Chicago.—"Father Gapon has not been lynched by Russian anarchists. On the contrary, he is in Switzerland, alive and well, as I positively know," said Ivan Ivanovitch Narodny in an address before a Socialist gathering on the north side Sunday afternoon.

Narodny came to the United States with Maxim Gorky, and was substituted for Gorky as the speaker at the Socialist gathering on account of Gorky's illness. The meeting was held under the auspices of the Industrial Workers of the World as a protest against the arrest of Haywood and Moyer of the Western Federation of Miners in connection with the assassination of former Governor Frank Steiensen of Idaho. Narodny added that only last Monday a mutual friend in Washington, D. C., had received a cablegram from Gapon.

Soldiers Caught in Ruins.
San Francisco.—The first accident in connection with the dynamiting of dangerous walls by the engineers of the army took place Sunday. Smaller quantities of explosives than were used last week are now being fired, and this necessitates two or more charges of dynamite being exploded before the desired result is attained. The engineers were working in the downtown district. Twice had dynamite been exploded under the facade of a tall ruin and a third charge was being inserted when the wall fell. Three soldiers were buried, but a mass of twisted iron partly shielded them, and only one was seriously hurt.

Threw Bomb at Vice-Admiral.

Moscow.—A bomb was thrown at the carriage of Vice-Admiral Doubaissouff, governor general of Moscow, as he was being driven to the palace Sunday. He was wounded in the foot and his aide-de-camp and a sentry were killed. The man who threw the bomb is reported to have been killed. He wore an officer's uniform. According to the route decided upon in advance, the governor general should have returned to the palace by the side entrance, but during the drive he changed his route and thereby ran into the peril he was seeking to avoid.

MURDEROUS TENNESSEE MOB.

Farmer and His Daughter Wounded During Night Attack.

Nashville, Tenn.—Marvin Winters was shot and instantly killed and Thomas Stewart and his young daughter severely wounded during an attack by a mob on Stewart's home near Pleasant View, Sunday night. No reason for the attack is known.

Stories Largely Untrue.

San Francisco.—The records of Coroner Walsh disprove the widely circulated stories that large numbers of people were shot and killed by the soldiers during the great fire. Of all the cases handled by this official in only one was it found that death was due to gunshot wounds. The exception was Heber Tilden, killed by a civic guardsman who had the mistaken idea that the automobile in which Tilden was riding was being used for looting purposes.

Macaroni Must Be Pure.

Washington.—The department of agriculture has announced that inspection of recent importations of macaroni, noodles and similar products has shown that these goods sometimes contain chemical preservatives, such as fluorine, which are regarded as injurious to health, and are after June 1 next no importation of macaroni colored with marigold yellow or other colors forbidden by the Italian law, or preserved with fluorine, or other preservatives injurious to health will be permitted.

Will Give Short Notice.

Junction City, Kan.—Among the army officers here it is the opinion that the call for the mobilization of regular troops on the Fort Riley reservation will come at a time when it is least expected. The late lack of information in regard to the mobilization of the troops is considered ominous. It has become known that President Roosevelt is anxious to test the facilities of concentration under conditions such as would exist were the troops called out quickly for active service.

IMPERVIOUS TO BULLETS BUT WERE SLAUGHTERED

Fanatical Fury of Zulus Did Not Count Against the Trained Soldiers of Great Britain.

Durban, Natal.—Colonel Mansell's column, which is pursuing the Zulu rebels under Chief Bambata, was attacked Sunday by 200 Zulus while descending a precipitous hill near the grave of Chief Cetewayo. Sixty Zulus were killed. Colonel Mansell had three men wounded.

Mansell was engaged in a reconnaissance from Fort Yolland. He was co-operating with other columns in expelling the rebels from a forest, with a view of cutting Bambata off from escape. He thought the Zulu attackers were Bambata's men. They numbered altogether over 1,000 men and attempted to employ the crescent formation adopted in the Zulu war, and only Colonel Mansell's prompt disposition of his forces prevented disaster. The Zulus displayed desperate fury. They were armed with rifles and assegais, and evidently had been drugged by witch doctors, who pretend to be able to render them impervious to bullets.

MONEY TO BUY FOOD.

Secretary Taft Sends \$300,000 to General Greely at San Francisco.

Washington.—Following the representation made to the war department by General Greely, commanding the Department of the Pacific, Secretary Taft has placed at the disposal of that officer an amount approximating \$300,000 of the relief fund of \$2,500,000 appropriated by congress for the relief of the San Francisco sufferers. With this money General Greely will pay for supplies already purchased and others which are needed, including fresh meat, which, he says, is indispensable. Supplies heretofore issued, including the tents from the quartermaster's stores, etc., which had been charged against this appropriation of \$300,000, will be returned to the army and are available for future use.

IS YOUNG AT EIGHTY-FIVE.

Senator Pettus Has No Thought of Giving Up Topa.

Washington.—Something unusual is happening in Alabama. The people want Edmond Winston Pettus to continue to serve them in the United States senate as long as he lives. Yet they are preparing to hold an election to decide upon his successor. The reason is that when Senator Pettus' present term expires, in 1909, he will be 88, and the election is to be held because Alabama thinks he will not live longer than that. But Grandpa Pettus is indignant. He says he is as spry as he was at 60 and that he expects to live out the whole six years of another term. He is a candidate for re-election on the platform, "A man is as young as he feels."

ODGEN SUFFERS FROM FIRE.

Three Big Warehouses Are Destroyed, the Loss Being \$40,000.

Ogden.—The most destructive fire that has visited Ogden in years broke out in the warehouse district at the foot of Twenty-third street, Sunday afternoon. Before the flames were gotten under control they had completely destroyed the Boyle Furniture company's warehouse, the Ogden Hide and Pelt company's building and a portion of the warehouse of George A. Lowe & Co. The loss will run up close to \$40,000. The origin of the fire is unknown, but the general belief is that a spark from a locomotive set fire to some of the inflammable material in the Boyle building.

Would Improve the Bill.

Washington.—Perry Belmont, speaking of the proposed amendments to the publicity bill, said: "I believe the proposed amendments will improve the bill, which already covers national and congressional committees, but did not provide for the publication of contributions and expenses until the close of the campaign, while the amendments provide for publication both before and after election. As the principle of publicity is preserved intact by the amendments, I am confident that no member of our organization will object to them."

Enticed Over the Border and Caught.

El Paso.—Aquila Triplett, wanted at Omaha in connection with land fraud prosecutions, was arrested here Sunday by a United States secret service agent from Omaha. The agent located Triplett in Chihuahua, engaged board at the same place he was stopping and for three months did everything he could to make friends with him, finally inducing him to come to El Paso, ostensibly to fix up some mining papers. It was then that Triplett was arrested.

Our Trade With Brazil.

Washington.—A bulletin issued by the department of commerce and labor says that the trade of the United States with Brazil aggregates in round numbers \$110,000,000—a larger sum than any year with any country in South America. Imports from Brazil for the fiscal year 1905 aggregated \$99,483,094, and exports were \$10,985,096. The bulletin says the total exports to Brazil show a falling off from \$15,165,079 in 1895 to \$10,985,096 in 1905, the decrease occurring chiefly in provisions.

Will Give Short Notice.

Junction City, Kan.—Among the army officers here it is the opinion that the call for the mobilization of regular troops on the Fort Riley reservation will come at a time when it is least expected. The late lack of information in regard to the mobilization of the troops is considered ominous. GREAT STRIKE IS PREVENTED

Operators and Miners Will be at Peace for a Term of Three Years.

Miners and Operators of Eastern Pennsylvania Reach an Agreement and the Men Will Return to Work at Once.

New York.—After carrying on negotiations for nearly three months, the sub-committee representing the anthracite mine workers and the operators of eastern Pennsylvania have agreed to continue the award of the strike commission for another three years, or until March 31, 1909, and the men will return to work as soon as practicable, probably Monday.

All miners who have not committed violence against persons or property will be re-employed, and no one will be discriminated against because of any action he may have taken in the strike movement.

This outcome of the dispute which threatened to develop into a long, bitter struggle and paralyze a great industry, was looked upon with satisfaction by the coal road operators, as the agreement entered into is their first proposition, made early in March in reply to the mine workers' original demands.

The miners had little to say regarding the agreement, except that it was the best they could get. They pointed out, however, that the agreement entered into is the first general agreement that has ever been signed between the operators and the miners, and they look upon it as a step forward in their efforts to have regular agreements with their employers.

WARSHIP SENT TO GUADALOUPE

City in French West Indies in Hands of a Mob.

Washington.—Guadeloupe, French West Indies, is under mob rule, according to a dispatch received at the state department from J. Jarvis Bowen, the American consul at that point. His dispatch says the mob is in control and the authorities are unable to restrain it. Election trouble are the cause of the disturbances. For several weeks there has been rioting, which is supposed to have come to a head Monday, which was election day. While there are few Americans at the place, large quantities of American goods are stored there.

William H. Sutherland, the senior officer in command of the fleet at San Domingo, has been ordered to send a warship immediately to Guadeloupe to protect American interests.

PUPILS HOLD FIELD DAY.

Parents and Patrons Are Spectators at Rowland Hall.

Salt Lake City.—The pupils at Rowland Hall held their field day on May 4 on the broad lawn before the school. It was attended by several scores of their friends and the patrons of the school. The work was in charge of Miss Anna Isabel Brooks, director of physical work at the institution. The exercises opened with a march in which the greater number of pupils of the school took part. This was followed by drills in the use of Indian clubs, dumbbells, ring and wands, interspersed with fancy marches and steps. The whole closed with relay races, games of tennis, basketball and tether ball.

Holy Roller Killed by Brother of His Victims.

Seattle.—Frank E. Croffield, leader of a notorious religious organization, known as the Holy Rollers, was shot in the forehead and instantly killed Monday morning, on First avenue, near Cherry street. Croffield's blood paid for the practices which his organization followed. The man who committed the crime, George Mitchell, claims he wiped out the stain his family suffered through the seduction of his two sisters by the leader of the Holy Rollers.

Insane Mother Kills Daughter.

New York.—Mrs. Mary Waters entered the room of her home in West Seventy-sixth street where her two daughters, Agatha and Ruth, lay sleeping, and shot Agatha, the eldest and her favorite, and without attempting to harm Ruth, then killed herself. Temporary insanity due to worry over the daughter's ill health is assigned as the reason. Mrs. Waters was the wife of John R. Waters, a well-to-do insurance broker, and was 52 years old. Agatha was 26 and Ruth is 17.

Killed Wife at Her Request.

Newport News, Va.—Pulian Paylin, an Austrian, on Monday surrendered to the police and announced that he had killed his wife by shooting her seven times in the head while she slept. The man declared that while his wife was discharged from an insane asylum in February last and that he took her life in compliance with her wish to do so rather than she return to the institution. After the killing, he says, he bathed and shrouded the body and then surrendered.

Celebrate Cannon's Birthday.

Washington.—Notwithstanding that Monday was the speaker's birthday, the house, after a splendid demonstration to Mr. Cannon as he ascended to the speaker's table, settled down to one of the biggest days in the history of the present session. The day was notable for the number of bills passed—forty-five in number, covering a large number of subjects. Many of the bills passed could have been passed by unanimous consent, but for Mr. Williams' determination to object to any legislation.

ABOUT HAMID THREATENED BY BRITISH AMBASSADOR

Great Britain Sends an Ultimatum, and Will Follow It Up With War Vessels.

London.—The British ambassador at Constantinople on Friday presented a note to Turkey demanding the complete withdrawal of Turkish troops from Egyptian territory. The note is practically an ultimatum and constitutes Great Britain's last word on the encroachment of Turkey in the Sinai peninsula. The French and Russian ambassadors at Constantinople are supporting the British contentions. Should the ultimatum fail to have the desired effect the British Mediterranean fleet will take the measure so often employed by the powers in recent years as the result of disputes with the sultan, and a naval demonstration, it is anticipated, will quickly bring about the evacuation of the Sinai territory which Great Britain contends is unquestionably Egyptian territory.

MANY ARE KILLED.

Mail and Express Trains on the Pennsylvania Road Come Together Head-on.

Altoona, Pa.—Chicago mail train No. 21 and Chicago and St. Louis express No. 18 on the Pennsylvania railroad, running at full speed, met head-on near Springfield furnace on the Petersburg cut-off, eighteen miles from this city, at 11 o'clock Friday night, and eight or ten passengers were killed.

The cause of the disaster is said to have been a misunderstanding of orders by the operator at Springfield Junction. The railroad officials at Huntington and Williamsburg have received a report that both locomotives, the express and mail cars and passenger coaches are completely demolished. One of the trains was running reversed, with the coach next to the engine.

NEW PREMIER'S STATEMENT.

Says it is the Purpose of the Czar to Work With Parliament.

St. Petersburg.—Premier Goremykin has, through his chief lieutenant, M. Schwanebach, sent the following message to the United States, and to the world generally:

"His majesty, the emperor, and the premier, M. Goremykin, have the full, honorable intention of carrying through the idea of national representation with all it implies. There is no intention of dissolving parliament. Naturally, unforeseen circumstances may arise, as in any government, which might force such an unhappy event. But we do not anticipate such a misfortune, as the majority of the members of parliament are lovers of their country and we do not believe that they are desirous of forcing a conflict."

Disturbances in Yellowstone.

St. Anthony, Ida.—Reports are being received here of the unprecedented disturbances within Yellowstone park since Vesuvius' latest eruption and the San Francisco earthquake. The geysers especially are making a most wonderful display of internal power of the earth.

"Old Faithful" is in almost continual action, and the others are almost equaling the old stand-by. Geysers that have been supposed to have been extinct for hundreds of years have broken out afresh and the park and contiguous territory is kept in a continual tremor from the effects of the disturbances.

Situation is Serious.

Washington.—General Greely, telegraphing to the war department from San Francisco on Friday, reports that 191,637 destitute were fed in San Francisco that day and about 40,000 in Oakland and Berkeley. The situation, he says, is serious, and a solution without suffering seems impossible. "The far-reaching extent of the disaster," General Greely concludes, "can not be appreciated without personal observation."

Drank Wood Alcohol.

Vancouver, B. C.—Two persons are dead, another will die and half a dozen others living near North Bend, B. C., are very ill from drinking wood alcohol. The victims who died are Mrs. D. Jackson and N. Hurley, and T. R. Hunter's life is despaired of. Hurley has ordered a supply of provisions and drugs from Vancouver, a gallon of wood alcohol being included in the consignment. The liquid was partaken of by a number, who did not realize its effects.

Valencia Survivor Insane.

Seattle.—According to the story told by Mrs. David Logan, wife of the lineman who recovered most of the bodies of the Valencia wreck victims, there is reason to believe another survivor of the disaster is wandering insane in the vicinity of Darin Creek. Information of the alleged survivor was brought in by Indians. Mrs. Logan reports the finding of the body of another victim. The remains were those of a child, decomposed beyond recognition.

Iroquois Theatre in Hands of a Receiver.

Chicago.—The Iroquois Theatre company of Chicago was placed in the hands of a receiver at Jersey City on Wednesday. The company confessed to no assets and liabilities of \$2,000,000 in damage suits, filed by scores of people after the burning of the theatre in Chicago in December, 1903. The merchandise creditors of the theatre company have been paid out of the proceeds of the sale of the theatre to the Metropolitan Theatre company.

BOLD PLOT TO LOOT ARSENAL

Armenians at Baku Bored a Tunnel and Nearly Succeeded in Their Design

Entered Wrong Room and Were Discovers by Soldiers, But Made Good Their Escape—Planned to Steal Reserve Supply of Ball vanak Regiment.

Baku, Caucasus.—A daring plot of Armenian revolutionists to rob the magazine in the arsenal here, guarded by the Sallvanak regiment, and containing over a million rifle cartridges, the entire reserve supply for all the regiments composing the garrison, has been accidentally discovered when the conspirators were already on the very verge of success. They bored a tunnel 700 feet long in the direction of the arsenal. It was one of the most pretentious examples of subterranean work in revolutionary annals since the days of the terrorists of the eighties. From the basement of an Armenian house the revolutionists worked their way under several intervening residences at a depth of twenty feet.

They constructed a completely sided tunnel, roofed it with planks and provided it with electric light and electric bells, connected with the stations of the several revolutionists on watch. Owing to a slight miscalculation the tunnel, in burrowing upward, entered, not the magazine, but an adjoining store room in the arsenal containing uniforms. Before they had time to rectify their mistake, the revolutionists were accidentally discovered by an officer; the alarm was given and a cordon of troops was immediately thrown around the adjoining houses.

But owing to the length of the tunnel, the Armenian house from which the conspirators started, was not suspected and they had ample time to escape. The entrance of the tunnel was eventually discovered by volunteers, who entered it from the store room and traced the passage to its source.

EXPEDITION TO MONGOLIA.

Russians Have Scheme to Grab Part of the Orient.

St. Petersburg.—Later developments increase the importance of the Russian expedition to Mongolia under Colonel Novitsky, which is to leave St. Petersburg the middle of May to survey the hitherto unexplored region between the Manchurian frontier and Unga. It is now announced that the expedition will consist of not less than sixty officers, and that its first work will be to make further surveys for a railroad from Khabkha to Kalgan, and another route from Unga to Kirin by which the eastern region of Mongolia will be thoroughly surveyed.

Food Supply Running Short.

San Francisco.—General Greely gave warning to the finance committee of the citizens' relief committee Thursday afternoon that he had only eleven days' rations on hand, that the army could not furnish an ounce of food beyond that which has already been purchased or is in sight, and that the feeding of the people is a problem which demands immediate attention. After considerable discussion the committee decided to have a summing up of resources and needs at a conference following this meeting. It is probable that an appeal for food supplies will be made to the country at large.

Cabinet Meets With Little Favor.

St. Petersburg.—The Novoe Vremya, which under the new regime resumes its old relations with the government, prints what it says is an authoritative statement of the Goremykin ministry, coupled with an intimation that the official announcement may not be given out before the convocation of the national parliament. The ministry, however, which contains several unexpected names, is as apt to find far less favor with the liberal majority in the popular branch of the parliament than the Witte cabinet.

Nurses Are Not Wanted in San Francisco.

Dr. Devine of the Red Cross wish to emphasize strongly the inadvisability of doctors, nurses or other relief agents coming to San Francisco. Their presence here will be worse than useless, they say, as their care imposes additional burdens on the authorities, civil and military. Shelter, transportation and food from the Red Cross or army cannot be furnished them.

Springs Affected by Earthquake.

Oakland, Cal.—A strange phenomenon of the earthquake has been reported from Parris hot springs, in Monterey county. Since the shock the temperature of the water in the hot soda springs, which for many years has been growing steadily colder, has increased from 100 to 122 degrees, making it impossible for any one to bathe in the springs. Several new springs have been opened, ranging in temperature from 100 degrees to 160 degrees.

Charged With Conspiracy.

Oakland, Wis.—Five lumbermen and bankers, representing an aggregate wealth far in excess of \$1,000,000, were arrested here Thursday by the federal authorities on the charge of conspiracy to defraud the general government by means of alleged land frauds in the state of Oregon. The men arrested are Leander Chouteau, James Matt Bray, Benjamin Doughty, James Doughty and Thomas Daly. Each was placed under bonds of \$2,000 and the hearing adjourned to May 11.

AN EVERY-DAY STRUGGLE.

Men and Women of Every Occupation Suffer Miserably from Kidney Complaint.

J. C. Lightner, 703 So. Cedar St., Abilene, Kansas, is one of the thousands who suffer from kidney troubles brought on by daily work. "I first noticed it eight or ten years ago," said Mr. Lightner. "The dull pain in the back fairly made me sick. It was hard to get up or down, hard to straighten, hard to do any work that brought a strain on the back. I had frequent attacks of gravel and the urine was passed too often and with pain. When I used Doan's Kidney Pills, however, all traces of the trouble disappeared and have not returned. I am certainly grateful."

WORST CASE OF ECZEMA.

Spread Rapidly Over Body—Limbs and Arms Had to Be Bandaged—Marvelous Cure by Cuticura.

"My son, who is now twenty-two years of age, when he was four months old began to have eczema on his face, spreading quite rapidly until he was nearly covered. We had all the doctors around us, and some from larger places, but no one helped him a particle. The eczema was something terrible, and the doctors said it was the worst case they ever saw. At times his whole body and face were covered, all but his feet. I had to bandage his limbs and arms; his scalp was just dreadful. A friend teased me to try Cuticura, and I began to use all three of the Cuticura Remedies. He was better in two months; and in six months he was well. Mrs. R. L. Riley, Piermont, N. H., Oct. 24, 1905."

WOMEN WHO LIKE TO STAND

Street Car Conductor Says They Do It to Keep Their Clothes Unwrinkled.

By the time the car reached Fortieth street there were no fewer than a dozen vacant seats, but the girl in the new tailor-made gown refused to avail herself of their hospitality, relates the New York Press. The messenger boy pointed them out to her. So did the woman in blue and the man with the red beard,
